

## Singapore Police Force Deploy BIO-key Biometric Technology to Secure Access to Critical Information

Wall, NJ, February 7, 2019 - [BIO-key International, Inc.](#) (NASDAQ: BKYI), an innovative provider of biometric authentication and security solutions, today announced that the Singapore Police Force has selected BIO-key biometric hardware and software solutions to enhance security and secure online access to critical information.

BIO-key's [ID Director](#) for Windows integrates directly with Active Directory, the organization's credential management program, adding a layer of biometric authentication. Users will enroll their fingerprints into the platform using [EcoID](#), a compact fingerprint scanner that's been tested and qualified by Microsoft.

"It's an honor to have BIO-key hardware and software recognized by a prominent international law enforcement agency as they understand the value of strong security," stated Mike DePasquale, Chairman & CEO, BIO-key. "Projects like this, with highly visible customers around the globe demonstrate the strength of the BIO-key brand and the growing adoption of our technology. We look forward to supporting the Singapore Police Force's efforts as they expand the use of our technology to their 38,500 members to increase security and protect the organization and citizens."

### **About BIO-key International, Inc. ([www.bio-key.com](http://www.bio-key.com))**

### **BIO-key Safe Harbor Statement**

All statements contained in this press release other than statements of historical facts are "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995 (the "Act"). The words "estimate," "project," "intends," "expects," "anticipates," "believes" and similar expressions are intended to identify forward-looking statements. Such forward-looking statements are made based on management's beliefs, as well as assumptions made by, and information currently available to, management pursuant to the "safe-harbor" provisions of the Act. These statements are not guarantees of future performance or events and are subject to risks and uncertainties that may cause actual results to differ materially from those included within or implied by such forward-looking statements. These risks and uncertainties include, without limitation, our ability to develop new products and evolve existing ones, customer and market acceptance of biometric solutions generally and our specific offerings, our ability to expand sales within existing

customer relationships, our ability to raise additional capital, and our ability to attract and retain key personnel. For a more complete description of these and other risk factors that may affect the future performance of BIO-key International, Inc., see "Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2017 and its other filings with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to disclose any revision to these forward-looking statements to reflect events or circumstances after the date made.
