

BIO-key Highlights Flexible, Convenient, and Compliant Multifactor Biometric Authentication Solutions with Enhanced Security

at connect:ID 2017 in Washington, DC

BIO-key SVP Jim Sullivan to participate on “Technology in the Service of Health” panel discussion Tuesday, May 2nd at 2:40 pm.

Wall, NJ, April 26, 2017 – BIO-key International, Inc. (**OTCQB: BKYI**), an innovative provider of biometric software and hardware solutions for strong and convenient user authentication, today announced it will exhibit at the **connect:ID** identity technology conference (Booth #205) in Washington, D.C. on Tuesday May 2nd and Wednesday, May 3rd.

BIO-key will demonstrate its one-to-many (1:N) fast and secure authentication solutions, including:

- WEB-key 4.0, a biometric cloud authentication solution supporting fingerprint, passwords, Prox Cards, PINs and One-time Passwords;
- ID Director for Windows, a biometric based authentication platform for managing Microsoft’s networking protocol Active Directory in the Windows environment; and
- BIO-key’s line of high quality value-priced compact fingerprint readers for Windows including [SideSwipe](#), [SideTouch](#), [EcoID](#) and [SidePass](#).

As a recognized leader in biometric authentication solutions, BIO-key will also debut production versions of its TouchLock™ line of biometric padlocks which received recognition as a “*Top Product*” at the Consumer Electronics Show in Las Vegas.

Jim Sullivan, BIO-key’s SVP Strategy & Business Development, will participate on the “*Technology in the Service of Health*” panel discussion, chaired by Kamir Kasargod Senior Director of Business Development, Qualcomm Cyber Security Solutions. The panel will take place on Tuesday, May 2nd at 2:40 pm.

“Biometric technology is emerging as a practical and cost effective solution for today’s sophisticated cybersecurity threats,” stated Mike DePasquale, Chairman & CEO, BIO-key. “BIO-key offers multiple authentication options, supporting the need for device-based and cloud-based authentication. BIO-key authentication solutions can save our customers both time and money as they are able to work side by side with existing processes. By offering customers multiple options, we are able to deliver flexible, scalable, non-disruptive and cost effective security solutions that will stand the test of time.”

About connect:ID (www.connectidexpo.com)

connect:ID unites solutions adopters and stakeholders from around the world to explore the development and fusion of multiple advanced identity technologies including biometrics, secure credentials and mobile identity systems.

About BIO-key International, Inc. (www.bio-key.com)

BIO-key is revolutionizing authentication as our easy to use biometric solutions enable convenient and secure access to information and financial transactions. We eliminate passwords, PINs tokens and cards

and make it easy for enterprises and consumers to secure their devices as well as information in the cloud. Our premium finger scanning devices, including [SideSwipe](#), [SideTouch](#), [EcoID](#) and [SidePass](#) offer market leading quality, performance and price. Now anyone can BIO-key their world!
